GROUP CLASSES OVERVIEW

Aerobics (Including Aerobic Gold and EasyBeat)

Sound scary? Anyone can do our Aerobics classes! We have different levels of difficulty with specialist instructors that will look after you and make sure you feel comfortable and have fun! Aerobic classes will cater for multiple levels of fitness, with a high impact and low impact option. The music is faster and some prior experience expected

Aerobics Gold is the Aerobic learning class. The music is slower and you learn the basic moves and what they are called. Totally low impact.

EasyBeat is the next step up. It is still low impact, however the music will be a little faster than Aerobics Gold and there is some expectation that you have some "Aerobic class" skills.

Aqua (Delivered during the Summer Season)

Fun in the water! This joint-friendly water class will have you moving around the pool like you never thought you could and have fun at the same time! Great for those of us who love water!

Step

Need something low impact, but calorie burning? Join our Step classes for a leg strengthening workout anyone can do. The music uses a controlled tempo and the choreography is simple.

Clinical Pilates

Lengthen and strengthen your muscles, open up joints and release tension! This class focuses on trunk stability for the best back care and core stability and introduces you to wonderful therapeutic breathing.

If you have not attended the Pilates class before, you need to have a 30 minute Personal Training session to learn the basics before attending the class.

See Reception to book your appointment.

Stretch

You know you need to stretch more, who doesn't? Why not make the most of our expertise and join a Stretch Class which may also include safe PNF stretching and myofascial rollers?
